KSHITIJ OVHAL

Cloud & Application Support Engineer | DevOps Aspirant

Kalyan, Maharashtra | +91-7039290398 | kshitijovhal342@gmail.com

PROFESSIONAL SUMMARY

Results-driven Cloud & Application Support Engineer with 1+ year of hands-on experience supporting mission-critical fintech and banking applications for SBI GITC. Proficient in AWS cloud operations (EC2, S3, IAM, CloudWatch, Lambda), infrastructure monitoring using Grafana, Prometheus, and Dynatrace, and L1 incident management with strict SLA adherence. Proven track record of ensuring 24×7 uptime for high-availability payment systems (ATM, POS). Actively building skills in DevOps practices, CI/CD pipelines, and infrastructure automation to transition into a Cloud/DevOps engineering role.

PROFESSIONAL EXPERIENCE

Support Engineer | NetWeb Technologies *Nov 2025 – Present*

- Monitor cloud infrastructure, servers, and network components using Grafana, Prometheus, and CloudWatch; reduced false alert noise by fine-tuning thresholds with DevOps team.
- Perform AWS operational tasks — EC2 health checks, S3 access validation, IAM policy review, Lambda log inspection — ensuring 99.9%+ cloud workload availability.
- Handle real-time alert triage and escalate P1/P2 incidents per SLA; manage full incident lifecycle in ITSM ticketing system.
- Onboard and configure new cloud assets into monitoring systems; generate daily/weekly infrastructure performance reports for leadership.
- Participate in 24×7 shift-based monitoring rotation, collaborating with cloud, DevOps, and security teams.

Apprentice – Application Support | Financial Software Systems (FSS) *Jan 2025 – Oct 2025*

- Provided L1 production support for SBI GITC banking ecosystem — ATM switching, POS, payments — serving millions of daily transactions.
- Monitored application logs via Base-24 and Dynatrace; performed rapid triage of transaction failures to minimise customer impact.
- Executed SQL queries on MySQL/SQL Server databases to investigate backend issues and deliver data insights to L2/L3 resolution teams.
- Managed 100% of incidents in S-core ticketing with strict SLA compliance; zero breaches in tenure.
- Supported patch validation, service restarts, deployments, and system health checks across production environments.
- Authored SOPs, troubleshooting runbooks, and functional guides, reducing average resolution time for recurring issues.

TECHNICAL SKILLS

Cloud & AWS	EC2, S3, IAM, CloudWatch, Lambda
Monitoring	Grafana, Prometheus, Dynatrace, Base-24
App Support	Incident Management, Log Analysis, SLA, ITSM Ticketing
Database	MySQL, SQL Server — queries, triage, data analysis
OS & Tools	Linux, Windows, Git, GitHub
Programming	Python (Beginner — scripting & automation)
In Progress	Docker, Kubernetes, Terraform, CI/CD (Jenkins / GitHub Actions)

CERTIFICATIONS

- AWS Cloud Practitioner Essentials — Amazon Web Services
- End-to-End MySQL: Schema to Subqueries — Udemy

PROJECT HIGHLIGHTS

ATM & POS Application Support — SBI GITC (via FSS)

- Supported mission-critical ATM switching and POS payment applications handling real-time financial transactions across India.
- Diagnosed and resolved transaction-level failures by performing server-side checks, log analysis, and coordinating with L2/L3 and vendor teams.
- Maintained uptime and stability of payment infrastructure, directly contributing to uninterrupted banking services for SBI customers.

EDUCATION

B.Sc. Information Technology *2024*

University of Mumbai

KEY STRENGTHS

▸ Strong analytical & troubleshooting mindset ▸ Performs well under pressure in production environments	▸ Fast learner with excellent documentation skills ▸ Clear communicator, collaborative cross-functional team player
